Profile

Enthusiastic **Java Full Stack Developer** with strong knowledge of **Java, Spring Boot, Hibernate, Reactjs and APIs**. Skilled in front-end and back-end development with a passion for building scalable web applications. Quick learner with hands-on experience in **SQL and Git**. I am eager to contribute and grow in a dynamic software development environment.

Education

Vijayapur, India	Bachelor of Engineering <i>BLDEA VP Dr PG Halakatti College of Engineering and Technology</i>
Vijayapur, India	PUC <i>Tungal Ind PU Science Collge</i>

Skills

Technical Skills

● ● ● ● ●
Programming languages: JAVA, SQL.
Web Technology: HTML, CSS and JAVASCRIPT
Frameworks: Spring, Hibernate and ReactJS
Database: MYSQL.
Tools: Eclipse, Git

Soft Skills

- Time management.
- Adaptibility.
- Quick Learning.
- Independent Work.
- Reliability

Projects

KBC Application

Developed an interactive KBC-style quiz app using core Java, where users register, view game rules, and answer multiple-choice questions. Included lifelines such as 50-50, Skip, and Audience Poll, with dynamic question handling and real-time lifeline usage for an engaging experience

Ecommerce Website (FlipZone)

Developed a full-featured e-commerce website using Spring Boot with MySQL integration. Implemented role-based login for Admin, User, and General users. Included product search, filter options, and pagination for smooth browsing. Added shopping cart functionality and integrated Razorpay for secure online payments

Courses

Vijayapura	JAVA Full Stack and Web Development <i>The Lern Hub</i>
Banglore	JAVA Full Stack Developer <i>Jspyder Rajajinagar</i>
